

Special Diets

Dear Parent / Guardian,

Special diets are an extremely important part of our catering provision and the safety of your child is our number one priority. We are constantly checking to ensure our special diet procedure is working, giving you reassurance that your child with medically diagnosed allergies or intolerances can eat safely with us.

To request a Medical diet, please fill in the attached form

Medical correspondence confirming the allergy/intolerance is required to ensure safety of your child by providing complete transparency of their food allergies or intolerances between all parties involved. It also gives us an indication of tolerance levels and possible reactions to look out for.

A special menu will be written to run alongside the school menu only once a medical letter has been received.

This will be sent to you the parent/guardian to confirm that it is correct before we can cater for your child.

We would need this information provided 3 weeks before a menu change (which is usually at the start of September term and after the February half term).

No menus will be written without a medical letter instead we will provide the parent with a copy of the school menu and allergen menu containing the *14 allergens, they can use this to discuss with the pupil which choice they will choose each day.

A parent will be responsible for keeping the special diet information up to date with the school and no changes will be made to our provision without an updated medical letter and form being received from the school to pass on to catering.

To request a Religious diet, please fill in the attached form

Special Diet Procedure Request Form

1. Child's Details:

Forename: _____ Surname: _____

Date of Birth: _____ Male / Female: *(pls circle)* Class: _____
